👤 PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in Angular, React, and Tailwind CSS, building scalable and responsive web applications. Experienced in REST API integration, performance optimization, and modern UI/UX practices. Passionate about creating user-friendly interfaces and seeking an entry-level frontend role.

👜 Experience

Frontend Developer Intern,
Kristu Jayanti Software Development Centre

06/2025 – 07/2025 | Bengaluru, India

- Developed responsive Angular applications using Tailwind CSS, improving UI responsiveness by ~30% across mobile and desktop devices.
- Integrated REST APIs and optimized data handling for dynamic UI updates.
- Collaborated via GitHub, improving code maintainability and team productivity.

🎓 EDUCATION

Bachelor of Computer Applications (Cloud Computing),
Kristu Jayanti University, Bengaluru, India

2023 – 2026 | Bengaluru, India

Expected Graduation: 2026 CGPA: 7.39 / 10 Relevant Courses: OOPS, Operating Systems, DSA, DBMS, Computer Networks, IOT, Edge, Devops, Cloud Computing

🧠 TECHNICAL SKILLS

Frontend

Angular, React, Tailwind CSS

Programming

JavaScript, Python, SQL

Tools

Git, GitHub, Postman

Backend Basics

Node.js

Databases

MySQL, MongoDB

📁 Projects

ZenFit - Fitness Web Application

- Tech: Angular, Tailwind CSS, REST APIs
- Built a multi-page responsive application with user authentication and workout modules.
- Integrated REST APIs to fetch dynamic data
- Improved user experience with mobile-first UI design.

Portfolio Website - Personal Web Application

- Developed a multi-page web application using Angular and Tailwind CSS, handling 100+ user interactions smoothly.
- Integrated REST APIs, improving data loading efficiency by ~25%.
- Built responsive UI ensuring 100% compatibility across devices.

CI/CD Pipeline Automation | Jenkins

- Built CI/CD pipeline using Jenkins and Docker, reducing manual deployment effort by ~40%.
- Automated build and deployment process, improving release speed by ~50%.

EC2 Deployment with Auto Scaling and Load Balancer

- Deployed scalable web application on AWS EC2 with Auto Scaling, improving system availability to 99.9% uptime.
- Handled variable traffic efficiently across multiple instances.

Certifications

AWS Cloud Practitioner Essentials - Amazon Web Services

AWS Academy Cloud Foundations - AWS Academy

Oracle Cloud Infrastructure Foundations I & II - Oracle

Oracle APEX Cloud Professional - Oracle

Python Foundation - Infosys Springboard

Cloud Security Fundamentals - Palo Alto Networks
